Research & Publication Cell

The Research and Publication Cell at Golaghat Purbanchalik is created to promote and develop research activities of the academic community at GP College. Critical thinking is an indispensable skill required for academia. The courses that are offered at GP College have the broader objective of encouraging researching skills of student's right from the stages of pursuing their degree course and aim at inculcating interdisciplinary knowledge in research. Publication of research work takes the research to greater heights as it promotes the dissemination of knowledge generated for societal benefits. The Cell supports research activities of the academic community at this college in multifarious ways aiming at promoting research and maintaining academic integrity.

Objectives of the Cell

- Assist the academic community at GP College to make contributions to the existing field of societal knowledge through various research output,
- Disseminate the importance of research and publication in academics through conducting various research activities for the academic community,
- Identify new trends in various academic domains and develop the capacity to converge it for academic discipline enrichment.
